Overall Description

Briefly describe the Memorial (affiliation / overall condition & any concern not already touched on) .

Possible some type of drainage holes on the East and West sides of the monument.

They are about 1 foot from the ground. Maybe to drain from the top? The top hole is 1-

inch deep, maybe plugged up with trash? Also drain holes are plugged up with trash.

The metal drain pipes have interior threads located at the ends of the pipe.

I am unable to get a copy of the newspaper article on microfilm for the time period that this monument was dedicated on May 30, 1922 in the A.M. The microfilm for that time period was unavailable at the Anaheim Public Library. I was able to get a copy of the adjacent city's newspaper (Fullerton News) article with a small note about the dedication.
