The 1860 Henry Patent rifle was a true force multiplier on the battlefield. The rifle was highly accurate, with a firing rate of 18 rounds per minute and a 16-shot magazine. The Henry 1860 Patent rifle fired .44 caliber rimfire cartridges while today's fires std .44-40 center fire rounds.

Over 12,000 Henry 1860s were sold to and carried by Union troops in the War of the Rebellion.

The Henry was feared on battlefields, becoming a symbol of both technological advancement and battlefield effectiveness. Battle tested, a company possessing Henrys would lay down withering firepower, scattering enemy divisions into full retreat. .
